

# RumiMate

**Melissa Wall, Martinborough**

Ever since I started using **RumiMate** on my horses in 2011, I noticed an amazing difference. Their coats started shining, they were keeping weight on well, their stress levels decreased, and their overall performance sky rocketed, especially in the competition ring.

With its blend of natural goodness, it has everything my horses need. It's my substitute for drench, and it also acts as a quick de-stressor. It's the best supplement to give to them, because all I have to do is put approximately 15mls into their buckets every night, or pour a bit onto my hands. What makes it even better; is my horses' love the taste of it!  
Thanks Steve! Missy

**Jonty Wall, Martinborough**

We've been using **RumiMate** on all our stock since 2008 when we started with BioAg. The dogs also have a squirt every day on their food, it's a natural daily balance for them so they are always happy, content & healthy."
